

SOLUTIONS FOR ROOFING COMPANIES

Organize inquiries, quotes, job sites, and documentation more effectively.

Between measurements, quotes, weather windows, and site scheduling, information arrives across many channels — phone, email, photos, and WhatsApp. KrambergAI brings it into order — practical relief for the office, site management, and leadership.

Where KrambergAI helps in practice

Inquiries & Callbacks

Pre-sort incoming inquiries, surface missing details, and prepare callbacks.

Measurement & Damage Assessment

Capture photos, notes, and damage details in a structured way and link them to the job.

Quotes & Change Orders

Consolidate existing information into review-ready quote and change-order text.

Materials & Scheduling

Coordinate appointments, scaffolding, materials, and weather windows at a glance.

Job-Site Handover

Clear handovers for crews: address, access, scaffolding, materials, and special notes.

Documentation & Knowledge

Create reports and make knowledge from past projects, templates, and documents searchable.

Benefits for your roofing company

- ✓ Faster response to customer inquiries
- ✓ More structured quotes and change orders
- ✓ Less information lost between office and job site
- ✓ Less time spent searching in the office
- ✓ Better handovers to crews and teams
- ✓ Simpler documentation of damage and repairs

Especially suited to companies working with pitched roofs, flat roofs, roof renovation, repairs, maintenance, roof windows, gutters, waterproofing, insulation, storm damage, and work related to PV systems.

Next step

Let us assess which AI use cases make sense for your roofing company in the near term — with a concrete look at your day-to-day operations.
