

FOR TRADE & CRAFT BUSINESSES

Fewer queries. Faster quotes. Better oversight across your business.

In the trades, it isn't only good work on site that counts – it's also how cleanly enquiries, callbacks, appointments, quotes and documentation come together. KrambergAI structures this information and makes it faster to use in everyday work.

Enquiry

Capture phone, email & WhatsApp in a structured way

Quote

Prepare faster – with every detail in place

Job

Send fitters to site fully briefed

Documentation

Record handovers & company knowledge cleanly

Example: When a customer reports a renovation, the property type, issue, urgency, photos, contact person and preferred time slot are all captured in a structured way – so the office can decide faster between a callback, an on-site visit or a quote.

Typical challenges

Information sits scattered – in the inbox, on sticky notes, in WhatsApp, in photos and in the heads of individual employees.

- Enquiries with no property, measurements, photos or preferred date
- Callbacks get lost in the daily routine
- Quotes take longer because details have to be chased up
- Office, fitters & management working from different information

What KrambergAI actually supports

KrambergAI doesn't replace the craft. It supports office work, customer communication and internal preparation.

- ✓ Structure & pre-qualify enquiries
- ✓ Speed up quote preparation
- ✓ Prepare job details for fitters
- ✓ Make company knowledge searchable
- ✓ Prepare sales follow-ups
- ✓ Capture callback notes cleanly
- ✓ Bring together measurements, photos & property info
- ✓ Answer recurring customer questions
- ✓ Simplify documentation & handovers
- ✓ Find old quotes & emails faster

Benefits for the business

- ✓ Less time spent searching
- ✓ Fewer duplicate queries
- ✓ Faster response to customer enquiries
- ✓ Better preparation of quotes & appointments
- ✓ Cleaner handovers between office, site & management
- ✓ Clearer overview of open cases
- ✓ Hard-won know-how stays usable in the business

Which businesses it suits

Fit-out & renovation

Electrical

Plumbing & heating

Roofing

Scaffolding

Painting & decorating

Joinery

Metalwork

Flooring

Service & maintenance

Project business

Especially valuable when office, fitters and management exchange information regularly – or when the office workload grows along with the business.

QUESTIONS WORTH ASKING

Where does most information get lost in your daily operations?

How long does it currently take from enquiry to finished quote?

Does your key company knowledge live in a system – or in individual people's heads?

NEXT STEP

The KrambergAI AI Initial Check

Together we identify where AI can quickly ease the load in your business – without a major system overhaul and without unnecessary complexity.
